Cyber Risk & Cyber Security Gap Assessment

Build a robust cybersecurity and cyber risk program with the guidance of NewRocket cybersecurity and ServiceNow experts

NEWROCKET

Vanquish uncertainty on your next steps in your cybersecurity and cyber risk journey – NewRocket is here to guide you

Access our experts

At NewRocket, we have been where you are. Throughout the engagement, you will have access to cybersecurity and cyber risk experts as well as our experienced ServiceNow Architects. Together through interviews, workshops and demonstrations will gain an understanding of your current state and potential gaps with a focus on your organization's unique context and needs.

✓ Cyber Risk & Cybersecurity expertise
✓ ServiceNow expertise

✓ Dedicated resources
✓ Proven methodology and results

Current state assessment and gap analysis

NewRocket will perform an analysis of your existing cybersecurity and cyber risk program both within and beyond ServiceNow. NewRocket will consider the gap analysis in the context of current business priorities, pain points, cybersecurity and cyber risk best practices, and regulatory requirements.

✓ Detailed review of current state
✓ Actionable insights

✓ Identify and address pain points
✓ Gap analysis tailored to your priorities and needs

Tailored roadmap

Based on our industry experience and your organization's own specific context, we will provide a tailored roadmap of next steps. This roadmap will include a recommended timeline and order of priorities based on your business's specific context, achieved results at each stage and key performance indicators to measure success.

✓ Tailored recommendations on your security incident management and cyber risk programs
✓ Business case support

✓ Know where you are, where you are going and how you are going to get there
✓ Clearly defined next steps

Build a robust cyber security program with ServiceNow

With your tailored roadmap and plan in hand, step confidently into your journey to build or enhance your cybersecurity and cyber risk program with our ServiceNow experts to guide you. Our practitioners will stay with you through the ServiceNow implementations to create continuity between strategy and execution and support roadmap updates, as necessary.

✓ Achieve quick wins with the long-term vision in mind
✓ Build a more protected and resilient organization with a robust cyber security program

✓ Continued access to NewRocket practitioners and ServiceNow experts to guide you through roadmap execution
